About Me

As a recent Computer Programmer Analyst graduate, I am proficient in various front-end development technologies such as HTML, CSS, SASS, Tailwind, JavaScript, React, and Next.js. During my time at Batour Dried Fruits, I gained practical experience building consumer-focused websites, adhering to best practices for web design, user experience, and speed. Additionally, I have experience working with APIs, third-party systems, and nosql databases to create web applications. I am always eager to learn new technologies and expand my skillset to deliver high-quality results.

Experience

Batour Dried Fruits 2022 - Today
Front-End Developer

As a volunteer web developer with Batour Dried Fruits, I bring my expertise in Next.js, React, SASS, and Firebase to maintain and improve the e-commerce website. My role involves ensuring that the website is responsive, user-friendly, and up-to-date while implementing new features and improvements to support the company's mission of empowering Afghan women. With my skills in web development, I am able to contribute to this meaningful cause and support the company's efforts to create economic opportunities for those in need.

Education

2021
Fanshawe College

Advanced Diploma

I have an advanced diploma in Computer Programmer Analyst from Fanshawe College, where I gained practical skills in programming languages, algorithms, data structures, and web development.

2023
ZTM

Free Training

I completed Zero to Mastery's Complete Web Developer and Complete React Developer programs, gaining in-depth knowledge and practical experience in modern web development technologies.

Main Technologies

- REACT
- NEXT.JS
- CSS/SASS
- Tailwind
- Javascript
- NOSQL
- Typescript
- GIT
